FRANMARINE UNDERWATER SERVICES PTY LTD
13 POSSNER WAY,
HENDERSON WA 6166,
Australia

Dear Sir / Madam,

I refer to your recent application for a Certificate of Operation under the *Marine Safety (Domestic Commercial Vessel) National Law Act 2012* (the National Law).

On the basis of the information you provided to the National Regulator in support of your application, I have decided to approve the issue of a Certificate of Operation.

All National Law certificates are subject to statutory conditions prescribed by Marine Orders. Your certificate may also be subject to additional conditions imposed by the National Regulator. If conditions have been imposed by the National Regulator, they have been imposed to provide for the safety of the operation, vessel(s) or persons on board.

Your certificate is enclosed. Please contact AMSA if any details on your certificate are incorrect.

Yours faithfully,

DELEGATE OF THE NATIONAL REGULATOR
GPO Box 2181, Canberra ACT 2601
p 1800 627 484

Review of decision – internal review

A decision of the National Regulator to impose additional conditions on a certificate is a reviewable decision for the purposes of the National Law. Where additional conditions were imposed on your certificate(s), you may within 30 days of the date of this letter, apply to the National Regulator for internal review of this decision.

An application for internal review may be addressed in writing to, Standards Secretariat, Australian Maritime Safety Authority, GPO Box 2181, Canberra ACT 2601 using the approved form (AMSA770 Internal Review Application) and submitted with any supporting documentation. Alternatively, please email the completed internal review application form, together with any supporting documentation, to standardssecretariat@amsa.gov.au.

The person conducting the internal review of this decision may:
(a) make a decision affirming, varying or revoking this decision; and
(b) if this decision is revoked, make such other decision as the person thinks appropriate.

The National Regulator will tell you, in writing, of the outcome of the internal review.

Under the National Law a domestic commercial vessel requires all of the following to operate:

- a unique vessel identifier
- a Certificate of Survey
- a Certificate of Operation
- or an exemption(s) from one or more of the above requirements.

In addition to the above, the vessel's operation must be covered by a safety management system that documents how the risks associated with operating the vessel are effectively controlled. There are substantial penalties for operating a domestic commercial vessel in breach of the National Law.
