Review Frequency

This document shall be reviewed at least every 12 months, or sooner following a significant incident, change of operations, vessel modification, or change in applicable legislation.

Controlled Distribution

This document is a controlled distribution issued from the Franmarine document management system (DMS), which holds the master record, revision history, and approval log. The controlled digital copy is located in the vessel's SharePoint folder. Printed or downloaded copies are uncontrolled; refer to the SMS Document Register for the current revision status.

TABLE OF CONTENTS

1. PURPOSE

This procedure establishes the actions to be taken if the master of MV Seagull becomes incapacitated and unable to command the vessel.

1.1 Regulatory Reference

Marine Order 504 (2024), Schedule 1, Clause 12.

2. IMMEDIATE ACTIONS

- The most senior qualified crew member shall assume command of the vessel.
- Administer first aid to the master per FUS-SMS-SGL-06C.
- Issue a PAN PAN call on VHF Ch 16, advising that the master is incapacitated and a crew member has assumed command.
- Proceed to the nearest safe port or berth at safe speed.

3. COMMAND SUCCESSION

The order of command succession is:

- Master (primary).
- Most senior crew member holding a valid coxswain or master's certificate.
- Any crew member with a current NSW boat licence and operational familiarity with the vessel.

If no crew member is qualified to operate the vessel, the acting commander shall reduce speed to idle, anchor or moor the vessel at the nearest safe location, and request assistance via VHF Ch 16.

4. NOTIFICATION

- Notify the East Coast Operations Superintendent immediately.
- Arrange for a replacement master or for the vessel to be recovered.
- Record all details in the vessel logbook.
