Review Frequency

This document shall be reviewed at least every 12 months, or sooner following a significant incident, change of operations, vessel modification, or change in applicable legislation.

Controlled Distribution

This document is a controlled distribution issued from the Franmarine document management system (DMS), which holds the master record, revision history, and approval log. The controlled digital copy is located in the vessel's SharePoint folder. Printed or downloaded copies are uncontrolled; refer to the SMS Document Register for the current revision status.

TABLE OF CONTENTS

1. VESSEL CERTIFICATES

Certificate	Number	Issued	Expiry	Status
EX02 Non-Survey Approval	EX02-10309	28 Mar 2024	No expiry	Current
Certificate of Operation	COO-690-006	04 Aug 2025	03 Aug 2030	Current

The vessel does not carry an EPIRB. An EPIRB is required only when operating more than 2 nautical miles from land; as a Class 2D, 2E vessel, this vessel operates within that limit.

2. CREW CERTIFICATES

Crew qualifications and certifications are managed in the StemsOne system and can be accessed digitally at any time. All crew should have their relevant physical original certifications on their person while on duty.

Crew certificate details are not duplicated in this document. Refer to StemsOne for the current register.

3. REVIEW

This register shall be reviewed annually. Certificates shall be renewed before expiry. The East Coast Operations Superintendent is responsible for monitoring certificate validity through MaintainX (for vessel certificates) and StemsOne (for crew certificates).

Survey documents, the Certificate of Operation (COO), the stability report, and any other vessel certificates or permits not held in MaintainX or StemsOne shall be held in this SMS document and its associated folder. Physical originals or certified copies shall be kept onboard the vessel as required, with backup copies stored onshore with the designated person.
